

EXPLORING THE UNIVERSE: SCIENCE AND HUMANITIES UNITED

Presented by:

Dante Lauretta

UA LUNAR AND PLANETARY
LABORATORY

In the 21st century, space exploration transcends national boundaries and has the potential to bring humanity together. Scientific collaboration has transformed the rivalries of the Cold War era into a shared search for knowledge. Dante Lauretta, principal investigator for the OSIRIS-REx mission, will discuss how a degree in Japanese in addition to theoretical math and physics has given him a career advantage. Since the Japan Aerospace Exploration Agency is heavily involved in asteroid exploration, Lauretta has applied his humanities degree to establish a cross-cultural exchange program and effectively engage his Japanese colleagues. Space exploration is an activity for all humanity and forms a natural vehicle to foster international collaboration and understanding.

TUCSON
HUMANITIES
FESTIVAL

FRIDAY
OCT 27 @ 10:00AM

HUMANITIES ALUMNUS OF THE YEAR

HOMECOMING 2017

FLANDRAU SCIENCE CENTER & PLANETARIUM

1601 E. University Blvd.

FREE & OPEN TO PUBLIC

Dramatic shifts in human history tend to spring from small acts of resistance and revolution. What can these acts in the past reveal about the modern world? Join us for the **2017 Tucson Humanities Festival: Resistance & Revolution**, a series of topical lectures, panel discussions and events, including noteworthy guests, presented by the UA College of Humanities.

RESISTANCE
OCT 3 - NOV 7
